**The Krog Corp.**

**The Krog Corp.** is a design/build firm specializing in general contracting, construction management and development services. The company's project portfolio includes virtually every area of the construction market and is comprised of design and construction projects for new and renovated facilities in the commercial, industrial, educational and institutional sectors. From the initial phases of a job cost analysis, value engineering, estimating, purchasing and coordination of consultants, subcontractors and suppliers to the finished product. 🏗️

**“We pride ourselves on continually delivering a product in which the client can be justifiably proud while also receiving the most for their construction dollar.”**

~ Peter L. Krog, P.E., president

Based in Orchard Park, NY, with another office in Corning, NY, The Krog Corp. was founded by professional engineer Peter J. Krog and is one of the top construction firms in the area. The firm upholds its commitment to unconditional client satisfaction by continually delivering quality workmanship on time, within budget. In addition, a hands-on style of management that affords every client and every project the highest degree of responsiveness and personal attention. 🏗️

The Krog Corp. offers its clients unmatched levels of confidence and financial security. Soundly managed and well capitalized, the firm consistently reports a strong cash flow position and maintains a high bonding capacity. Successful financial footing allows The Krog Corp. to work with the most respected clients and undertake some of the most important construction projects in the area. 🏗️

The building on the right was restored by The Krog Corp. and then the second adjacent building was built to complement the original.

# renovation

**The Krog Corp. Philosophy:**  
When design can be controlled without sacrificing aesthetics, then coordinated with purchasing and construction, the results are considerable cost savings that are passed onto owners. This makes marginal projects successful and ensures owners the most for their construction dollar.

**Rising to the Occasion:**  
In just one example of a dramatic revitalization project in an existing building, The Krog Corp. transformed a long-unoccupied space into a bright and functional loft (below). This project, like all of The Krog Corp.'s undertakings, was completed within budget guidelines and occupied on time.
